Ice House Tactics

Date: June 20, 2011

Prepared by: John Frantz and Guy Brown

Lake: Ice House

Month: July

Areas: See map above.

Water temperature & likely depth(s) fish will be at: 65-68 degrees, on the surface, perhaps as deep as 30 feet.

Rod, reel, main line (e.g. # test, lead core, etc.): Medium, medium light action, 6-7 feet, 8 lb. mono.

Leader #/length: 8 lb., 6-8 inches long.

Dodgers, side-kicks, wiggle fins, e-chips, flashers: Slim Willies with a night crawler; Wildthing dodger gold with night crawler. Apply a scent to the dodger.

Lures/colors: Night-crawlers.

Scents/bait: Night crawlers.

Leadcore, Side-planers, downriggers: Lead core and down riggers.

Tactics: With an electric trolling motor put your line behind the boat 100+ feet, more if you are using an outboard motor.

Peak times: First light and dusk.

Fish finder: Start the day setting it to read water depth to 40'.

GPS: If you have one mark hits, hook-ups as soon as they occur and then stay in that area until the bite stops. Watch the direction of the marks it may tell you which direction the fish headed.

Boat handling: Troll at 0.9-1.2 mph.
